

**THE
BLENDER 2.5
CHEAT SHEET**

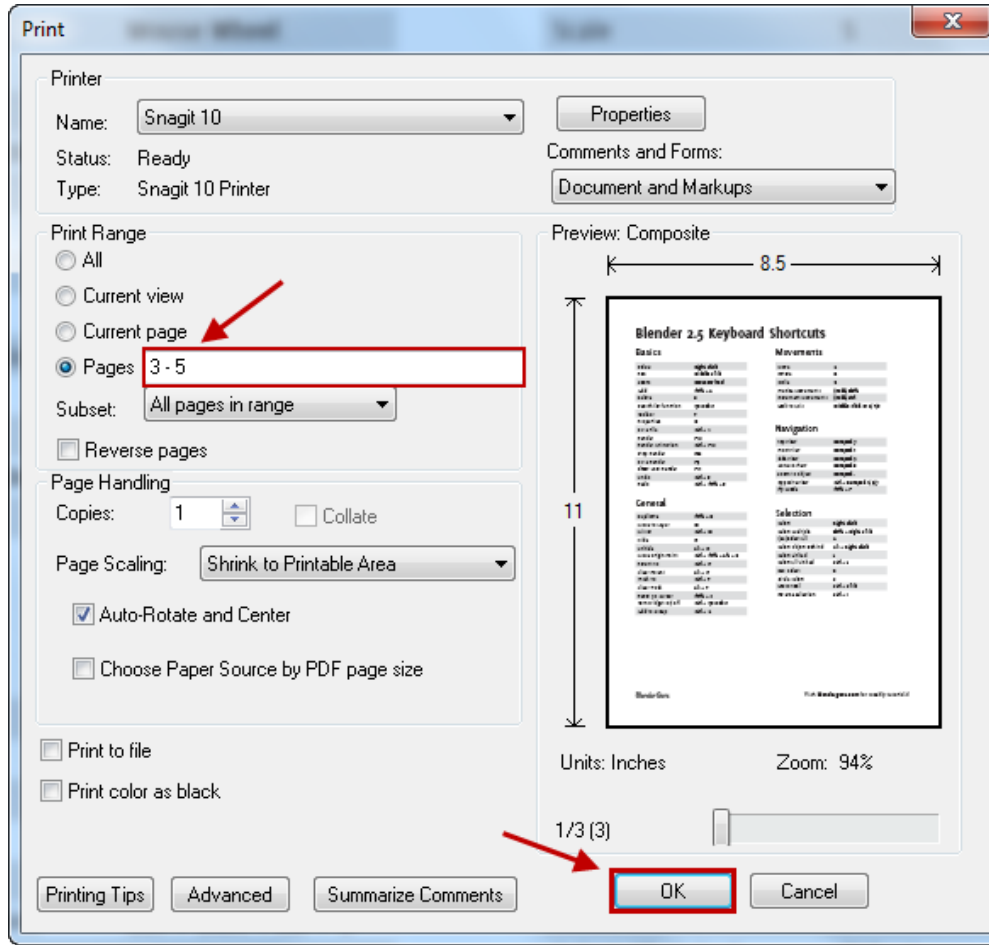

Useful Keyboard Shortcuts

by Andrew Price

How to use this book

This book has been made printer friendly on purpose! Print it out and stick it next your computer for quick reference in the future.

To avoid wasting ink, make sure you don't print the first or last page! To do this, press **Ctrl + P**. In the print dialog box change the print range to **3-5** then hit **OK**.

Now stick that sucker next to your computer and enjoy a stress free Blender :)

Blender 2.5 Keyboard Shortcuts

Basics

Select	Right Click
Pan	Middle Click
Zoom	Mouse Wheel
